# IODD Admin Manager Guide

**Applicable Models: ST400 and MINI PRO only.**

The IODD Admin Manager allows you to manage passwords (set/remove) and configure various options for both administrators and users.

- **Preset Management:** Save and manage all configurations as presets for easy application.
- **Password Reset:** Includes a feature to reset passwords (**Note: This will erase all internal data**).

For more detailed information, please refer to your product's Quick Guide or visit the link below:
